EXPERIENCE

IT Intern

FCG Services

April 2023 - December 2023, Peoria, AZ

- Modified SQL databases using Microsoft SQL Server that stored product and customer information.
- Utilized nopCommerce to create an eCommerce website and customized its features/design with ASP.NET and Azure.
- Imaged Windows OS machines and applied them to multiple computers.
- Designed the website for a subdivision of the company, known as m2Suite, using Figma and Squarespace.

Software Engineer Intern

ScriptPro LLC

January 2022 - October 2022, Remote

- Developed front-end features and contributed to backend logic using HTML, CSS, JavaScript, and Python.
 - Managed and optimized databases (MySQL), improving scalability and data integrity.
 - Demonstrated strong problem-solving skills and adaptability by learning new technologies and languages (Node.js, React, Django) to meet project requirements.
 - Communicated effectively within a team and engaged in a professional development.
-

PROJECTS

ChechoCutzz

<https://chechocutzz.com> • October 2023 - Present

- Designed an appointment-based website using Figma.
- Developed both the frontend and backend of the application using Next.js.
- Stored user and appointment information in a MySQL database, and modified it using TypeScript and Prisma.io.

Portfolio Website

<https://brandnramirez.com> • January 2021

- Used Astro.build to a website that displays my projects.
 - The primary programming language used is JavaScript.
-

COURSEWORK

CSE 365 - Information Assurance

Arizona State University • 2023

- Studied key areas including Web and System Security, Cryptography, and Network Security at Arizona State University.
